**Description of Property and Justification:** *(Please attach map and photo)*

The structure is "L" shaped of log construction with brick veneer probably built between 1788 and 1795. There are six bays in the front façade still containing the original nine over six double hung windows on the second story.

The property was one of five or so taverns and inns in the community of Jerusalem Town which served the national road, now known as US Alternate Route 40 constructed in this area in the early 1820's.

Description:

The exterior of the two story, six bay brick double house suggests a construction date in the mid 19th century. The brick surface, however, looks to be a veneer over a contemporary or earlier log structure. Windows have two over two pane sash beneath wide wooden lintels. Entrances are located in the two central bays. Both doors are sheltered by a hip-roofed hood.

In the 1877 Atlas map for Funkstown, this property is shown to be owned by the Misses Bender.

It, like its neighbors, reflects the prominence of the National Road which clearly influenced the development of Funkstown in the first half of the 19th century.
